Aspiring Software development Technologies (August2023 -February2024)

Kodnest Technologies Private Limited Bengaluru, Karnataka

Profile Summary

- Comprehensive skills in Java, HTML, CSS, JavaScript and Bootstrap.
- Applied expertise to create engaging and responsive user interfaces.
- Strong command of SQL for efficient and effective database management.
- Real-world application of theoretical knowledge in hands-on projects.
- Developed end-to-end development skills and collaborative problem-solving capabilities.

Technical Skills

- **Programming:** Java, SQL, Python, JavaScript.
- **Web Development:** HTML5, CSS3.
- **Database:** MySQL, Oracle 21c.
- **Frameworks:** Bootstrap, JDBC, Hibernate.
- **Version Control:** Git, GitHub.

Projects

- **Portfolio:** Developed and launched a dynamic personal website showcasing proficiency in full-stack development. Implemented responsive design using HTML5, CSS3 and Java Script, resulting in an engaging user experience.
- **ShopNest Project:** ShopNest is an e-commerce full stack web application. The admin user can add new products while the customer can explore products, add them to the cart as well as check out. The users need to register and login to access functionalities. Technology used: Java EE, Servlets, JSPs, JDBC, CSS, Oracle DBMS

Academic Projects

- **Smart Cam Module:** Designed and executed a pioneering Wi-Fi controlled surveillance car project during college, featuring live visualization capabilities through a web interface. The project incorporated a sophisticated camera for remote monitoring, a metal detector to enhance security measures, and a versatile arm for pick-and-place operations. Successfully integrated hardware components with a website-based control system, showcasing a seamless fusion of technology for a comprehensive and user-friendly solution.

Education

S G Balekundri Institute of Technology Belagavi, Karnataka

Electronics and Communication Engineering

CGPA:7.69

2019-2023
